INTERNSHIP & PRACTICAL EXPERIENCES

Product Development Intern	Internship Jan 2026 - March 2026
Wizzard Technologies Inc. (Ortigas, Pasig City)	
- Developed a web application using Laravel following MVC architecture. - Built frontend interfaces and backend features for a Dental Care Management System. - Supported development of a Human Resource Management System, including data migration and documentation. - Wrote and optimized SQL queries and worked with PostgreSQL databases. - Used Docker and Linux-based tools in a collaborative development environment. - Followed version control practices using Git in a team setting.	

PROJECTS

Lutowl - Filipino Culinary Recipe Sharing Platform	Personal May 2026 - Present
https://www.lutowl.site/	
- Built a recipe platform using Vue.js and Supabase, completing the full official verification process for secure Google OAuth login features. - Added interactive community features like a real-time comment section, liking posts, and saving favorite recipes. - Integrated an AI chatbot API that chats with users to provide personalized food suggestions and recipe recommendations based on available ingredients.	
HomeHive - Rental Property Management System	Thesis Project 2024 - 2025
STI College - Novaliches (Metro Manila, Quezon City)	
- Developed a web-based rental property management system as part of a Computer Science thesis project. - Designed features including digital contract creation and tenant-owner workflows. - Implemented a basic AI-powered analytics feature to identify rental trends and support data-driven decision making.	

EDUCATION

Bachelor of Science in Computer Science	2021 - 2026
STI College	
- Relevant Coursework: Web Development, Data Structures, Databases, UI/UX Design, Cybersecurity Fundamentals, Data Privacy, ISO/IEC Standards - Expected Graduation Date: July 10, 2026
