SUMMARY

Bachelor of Science in Computer Science. Aspiring full-stack developer with a strong interest in software development and system design. Enjoys building practical and user-focused solutions while continuously learning and improving skills through hands-on practice and teamwork.

INTERNSHIP & PRACTICAL EXPERIENCES

Product Development Intern

Wizzard Technologies Inc. (Ortigas, Pasig City)

Internship | Jan 2026 - March 2026

- Built a CRUD web application using Laravel with MVC architecture as part of a technical assessment
- Contributed to a Dental Care Management System, implementing frontend interfaces and backend functionality
- Assisted in a Human Resource Management System, supporting documentation, migration, and containerization tasks
- Worked with database operations using PostgreSQL, including queries and stored procedures
- Used Linux-based tools and basic Docker workflows in a collaborative development environment
- Followed version control practices and maintained technical documentation

HomeHive - Rental Property Management System

STI College - Novaliches (Metro Manila, Quezon City)

Thesis Project | 2024 - 2025

- Developed a web-based rental property management system as part of a Computer Science thesis project.
- Designed features including digital contract creation and tenant-owner workflows.
- Implemented a basic AI-powered analytics feature to identify rental trends and support data-driven decision making.
